MAHINDRA & MOHAMMED

A significant combination, which represents what might well be termed a co-operative effort to secure for India that industrial development so indispensable to the full realisation of her future dreams.

You have heard of plans, many plans, in this connection. Now comes a positive, concrete and co-ordinated scheme to develop India's resources and raise the standard of living of the masses.

Devised by an Indian business man after a careful three-year study of American maritime achievements, it has secured the support and ready assistance of a group of business men with long experience and a firm faith in their country's destiny.

In their anxiety to further the industrial and agricultural development of this country, the founders of this co-operative organisation believe that they must have the support of those who will benefit most—the general public—and to secure that support it is essential that their aims and objects should be generally acceptable.

Here, then, are the principles which will guide their future activities —

FIRSTLY, encouragement of private enterprise and the initiative of the individual.

SECONDLY, belief in the ability of corporate institutions to oppose anti-social trends, such as monopolies and cartels.

THIRDLY, recognition of the fact that the labourer is worthy of his hire and that in co-operative working lies the dignity of human toil.

FOURTHLY, confidence in the ultimate success of their ventures and in the capacity and aptitude of the people to give effect to them.

FIFTHLY, acceptance of the fact that ability is the sole test of merit and advancement and that neither colour, creed nor caste should stand in the way of harmonious working.

What, you will have asked yourself, do I whom do they represent, and what has all this business moralising got to do with me?

Well, MAHINDRA & MOHAMMED are concerned with what might be termed basic engineering—providing the tools with which to finish the job of India's industrial and agricultural rehabilitation.

That rehabilitation, of course, has a great deal to do with you—for it holds out the promise of a better land for you to live in and a healthier and happier life for you to enjoy.

As to the moralising, it is intended to place on record that MAHINDRA & MOHAMMED, though a business firm, are imbued with a national purpose and a new sense of social responsibility.

Whom do they represent? As the name implies, this is a joint venture of Hindus and Muslims. The Chairman is Mr. K. C. Mahindra, who has just returned after three years abroad as Head of the Government of India Supply Mission in America.
